Wheat Threshing Begun.

Morgan McKinney has started his thresher and has already threshed several crops of wheat in this county which is making a splendid yield. There is more wheat in Powell this year than there has been raised here for a number of years past, and we believe that if farmers will take into consideration the value it is to their land to grow wheat and the light expense attached to raising it, they will find the wheat crop a very profitable one to grow, and in a few years they will find that their land is much better than if they had have grown corn altogether. Clay City's most excellent roller flour mill, while not now in operation, will evidently be soon put in operation, as it is a very paying business, then our farmers will have a close ready market for their golden grain, or they can exchange it for flour, an article which every family must have.

R. W. Miller, Madison county's popular Representative, and Democratic candidate for Congress, died at his home in Richmond Friday after a few days light illness.

New Cement Industry.

A special from Stanton Tuesday says:

One of the largest Portland cement factories in the United States is to be located here if the present plans of the Patrick Cement Company are carried out.

Articles incorporating this company were received for record in Powell county by the County Clerk today establishing the home office here and permitting the manufacture and putting on the market by the company of "cement of the variety commonly known as Portland cement, from clays, limestone and other minerals; with power to dig, mine, haul, buy, sell, lease and deal in all necessary ingredients, minerals or otherwise necessary to such manufacture".

The capitalization is a nominal one of \$25,000 with privilege of increasing to \$500,000 as it is understood the holdings of the company comprise nearly a thousand acres of limestone and clay valued at \$200,000. The incorporators are Messrs. J. C. Patrick, J. D. Atkinson and Mrs. Kate S. Bohannon.

The organization of the company follows the discovery and testing of cement clays in Powell county by the Kentucky State Geological Survey within the past year.

The Powell county clay beds are eighteen feet thick over 300 acres while six feet is considered a good depth. They immediately adjoin vast quantities of the proper sort of limestone and also convenient to natural gas and coal for fuel. Stanton is directly on the railroad and with the establishment of a big cement industry and probably other factories, expects to become the commercial center of the mountains.

President Patrick of the Patrick Cement Company has just returned from Lexington, where he established an agency with the Fayette Land Company.

Negro Stabbed.

In an altercation brought about by a game of craps last Thursday afternoon, Claude Alexander, white, seriously stabbed John Pruitt, col., over the heart. His condition is bad but he may recover. Alexander had an inquiring trial before Judge Fletcher and proved a clear case of self defense. He was acquitted.

The Clay City Postoffice.

Beginning July 1st the Clay City postoffice became a Presidential office with a salary of \$1,000 per year. This increase of business speaks much for our obliging post mistress and shows that business in general in Clay City is on the increase.

J. R. Barr, the popular General manager of the L. & E. is very sick at his home in Lexington and it is feared cannot recover.

Am prepared to do custom grinding every day during the week. Meal guaranteed to be first class. Bring your turn and give me a trial.
G. W. Anderson,
Clay City, Ky.

Dr. W. O. McIntire, dentist, will be at Clay City to practice his profession from July 23 to 28 inclusive.

To Test this Territory.

For several times occasional tests of an imperfect nature have been to find oil or gas in Powell county, but with indifferent results. It is said that new leases have been taken on territory near Stanton and that tests in earnest will shortly be made to find out whether oil or gas really exists there in paying quantities.—Winchester Democrat.

That there is both oil and gas in Powell has time and again been demonstrated, but it has never been found in sufficient quantities to justify the laying of a pipe line into the field. If a pipe line were already in this territory there are now already several paying oil wells in the county. There are already two gas wells in Clay City alone, but as both are shallow wells—not more than 350 feet deep, they are small producers, yet it is strong evidence of what may be further under the ground.

No Revival at Hardwick's Creek.

Bro. J. W. Jackson, who was to assist me in a revival at Hardwick's Creek M. E. C. S. will not be able to fulfill his engagement, as announced, having been summoned to appear as a witness in a case in the Estill Circuit Court.

Sunday, July 8, is the time for our Quarterly meeting at Hardwick's Creek M. E. C. S. and Bro. Mann will be with me on this occasion, preaching Saturday night, Sunday morning and Sunday night.

Geo. D. Prentiss.

We are informed by one of the members that dinner will be served on the ground on Sunday, and as the Hardwick's creek people are so well noted for their hospitality no one need fear on this occasion of going away hungry.

Farmers in all rural districts where automobiles are used are up in arms against the new machine, but in Kansas they have planned a way to kinder half way get even with them. The farmers are preparing to boycott all merchants and business men who drive through the country in an auto. They claim that their horses are so badly frightened by the machine on the county roads that it makes it unsafe for travel.

Mrs. C. Shimfessel and daughter, Miss Fannie May, are visiting relatives in Lexington.

Judge D. B. Redwine has resigned his position as a member of the Board of Control, to which position he was recently appointed by Gov. Beckham. About the time of the acceptance of the resignation, Gov. Beckham appointed M. M. Redwine, brother of the Judge, Circuit Judge of the new district created by the last legislature. As Dr. Redwine is holding the position of Superintendent of the Lexington asylum, we presume the Governor does not want to enter the campaign with so much "Ped wine" on his hands.—Brentitt County News.

Beckham has made one of the best governor Kentucky ever had, but it does seem that he was about to be overstocked with Red-wine, and it also seems that he fills all appointments with pets which cuts out rising and deserving Democrats.

**BEAUTIFY YOUR HOME
WITH Kinloch PAINT**

Important Memorandum—The painter in the most important branch of painting. A job worth doing is worth doing right. Kinloch Paint is a good painter with the best quality of paint. Kinloch Paint is made in the United States. The same paint applied by a painter of skill will last for years. The "put-you-over" of the good painter's job is \$11.00—the poor painter's \$25.00.

A small investment in paint adds greatly to the value and beauty of your property and makes you a "good neighbor" by making a good neighborhood. Good painting is one of the best investments and pays big returns in improved values. It's a saving, not an expense. But when you paint—buy only

HOUSE PAINT**

There's one indisputable reason why, a reason every honest painter will acknowledge—"The Oil is the Life of Paint," and the sure way to get good oil is to buy it fresh and pure from the dealer's barrel, not from the ready-mixed paint can. The paint that is ready to mix with linseed oil, gallon for gallon, is KINLOCH PAINT, and we recommend it to you for every good reason we know.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. For Pain

Take a Dr. Miles' Anti-Pain Pill, and the Pain will disappear Like Magic.

Not by paralyzing the nerves and glands, like opium, morphine, cocaine, and other dangerous drugs, but by increasing the natural secretions.

This action is obtained as a result of modern discoveries in medicine, making it possible to relieve pain without bad after-effects.

You can safely depend upon Dr. Miles' Anti-Pain Pills to relieve and cure such pains as Neuralgia, Headache, Stomachache, Menstrual Pains, Rheumatism, Backache, Toothache, etc.

They will also, by their calming action on the nerves, almost instantly relieve such distressing feelings as Dizziness, Car-Sickness, Indigestion, Irritability, Sleeplessness, Nervousness, etc. Not merely do they relieve, but they also absolutely cure, because by persevering in their use, you do away with the cause.

Dr. Miles' Anti-Pain Pills are guaranteed that first package will benefit, or your money back. Never sold in bulk.

"I am thankful for the good Dr. Miles' Anti-Pain Pills have and are doing me. Ever since the war I have had spells of severe throbbing headache, caused by catarrh, until six years ago, I began taking Anti-Pain Pills, the only remedy that ever gave me relief. Since then I have not had one hard attack, because I take a pill and it overcomes the difficulty."—GEO. SAUNDERS, Greensburg, Ind.

The Good and Bad Trusts.

Talk about good trusts and criminal trusts is all hosh. All trusts—so-called good or so-called bad—are all after the same thing—all the profits they can get. And isn't that what everybody is after? Because one trust makes more profit than some other trust must it be classed as bad? Just how much profit must a trust make before it ceases to be good?

W. R. Shimfessel, who has been here for a few weeks the

guest of relatives, has returned to his home at Independence, Mo.

The Clay City Council met last night but adjourned until Friday night on account of it being a legal holiday when the transaction of business may be questioned.

It is claimed that peafowls will eat the Colorado potato beetles which have been so destructive to Irish potatoes of recent years, with eagerness. We advise everybody to buy peafowls. They are beautiful birds, their tail feathers make excellent flybrushes, and their meat is equal to a wild duck.

When society, as distinct from law, begins to punish the moral offenses of the rich as it does those of the poor, the problem will be a long way toward solution.
